

**CREATING
BETTER WAYS
TO MOVE
THE WORLD**

Bombardier Transportation is the number one provider of rail solutions in the world. Our business holds the number one global market position in eight of the ten markets we service.

At Rail Control Solutions (RCS) our mission to *Optimise the Flow of Trains*. Since 1915, our expertise in developing, engineering and installing advanced rail control and signalling systems has helped us gain recognition as a world leader in this field.

RCS offers a comprehensive portfolio of rail systems including:

- Integrated control systems
- Computer and relay based interlocking systems
- Automatic train protection and train operation systems
- Radio based rail control and signalling systems
- Wayside equipment

We are active in over 50 countries and 130 projects around the world making a career with RCS at Bombardier Transportation a truly global one.

**BOMBARDIER TRANSPORTATION
RCS TRAINEE PROGRAM IN EUROPE (M/F)
STARTS SEPTEMBER 2016**

The RCS Trainee program runs for 18 months and includes 3 rotations within RCS aimed at building your competence across our diverse and complex engineering projects. To increase the learning curve even faster, the first two rotations take place in the hiring site while the third rotation can take place in another global location.

We offer you:

- A high quality development program with 3 x 6 months assignments in different roles
- An international work environment with global projects and diverse teams
- The chance to take responsibility at an early stage and take an active role in your personal development
- Development training modules
- Exposure and visibility to senior management
- A permanent employment contract right from the start in all hiring sites

What we are looking for:

- Bachelor or Master degree in Engineering or Business.
- Excellent academic track record

- International experience and intercultural mindset through studying and/or working abroad.
- Work or Internship Experience - between 6 -12 months, preferably in the railway or similar industry.
- Fluency in English. The local language is considered a plus.
- Mobility within Europe and possibly worldwide, during and after the program.
- Full commitment, drive for innovation, teamwork, flexibility and achievement orientation.
- Engagement and passion for the railway industry.

We are looking to recruit in the following countries:

- Poland (Katowice)
- Spain (Madrid)
- Italy (Rome)
- Sweden (Stockholm)

We thank all applicants for their interest. The selection process for this program will continue until June 2016. Until then, we will proceed with the selection role by role. We will contact only those under consideration accordingly.
